About This Game

The Exiled is a **fast-paced PvP** game set in a forsaken valley. Game worlds last for **up to one month**. **Open PvP** and **Full Loot** mean that you will have to constantly balance risk and reward. **Find a group of friends and form a clan** to thrive in the valley. Cooperate or conquer, craft or combat; every decision is critical as you seek to flourish in a forsaken valley. A classless system means you shape your character to fit your style of play. With no grind, full loot and unrestricted PvP clashes, you must constantly balance risk and reward as you decide how to interact with the world and your fellow players. Craft equipment, construct your settlements and build alliances, as you explore challenging open world environments with unique geography and features. Each skirmish and siege will define your fate, as you vie to win your freedom from The Exiled.

Why we're creating The Exiled

To make a long story short: We love PvP but we hate having to grind for it. Doesn't matter if that grind means clicking on rocks and trees, farming rats or watching our mining lasers overheat on some asteroid. We just want to log into the game, find a friend or two and compete with an army twice our size. We want a game that takes us seriously as adults and allows us to make our own diplomatic decisions instead of throwing us in a battleground with a bunch of randomly selected "friends" and "enemies". We want a game that is constantly changing, keeping us on our toes and forcing us to get better instead of showering us with meaningless rewards and digital bauble.

Meaningful PvP

-
- Open PvP: Engage other players in combat anywhere, anytime.
 - Full loot: Carrying high-level equipment into combat means you risk losing it.
 - Player-run clans: No pre-built factions. You decide who you ally with.
 - City building and sieges: Build up your own towns - or raze those of your enemies.

Skill-based Combat

- Full friendly fire: Make sure your fireballs hit the enemy and not your allies.
- Line of sight: Hide behind a bush to ambush your enemies - and look behind you!
- Footsteps: Every player leaves them behind - want to be a bounty hunter?

Free Character Development

- 15 different class combinations: Have you ever played a Scythe-wielding mage?
- 80+ combat abilities: Build a lightning wall, lay explosive traps or shoot a hail of arrows.
- All equipment is player-crafted: You can tweak your gear to fit your play-style.

A Changing World in Conflict

The world of The Exiled is in a state of upheaval. A once peaceful and prosperous trading city turned from a multi-cultural melting pot into a stone cold dictatorship. You are on the receiving end of this societal change and together with hundreds of other misfits - criminals, political rebels and adventurers - you get exiled to a barren land -The Valley. Now you have to decide how to continue your life. Do you become a lone wanderer and live off the lands? Will you join the rebels and try to leave the valley by force? Or do you turn to your baser instincts and survive by robbing your fellow inmates?

Lost Chronicles of Zerzura(2014) is a 3D fully voiced point-and-click adventure. The story is captivating and let me give you a glimpse here: The protagonist's mother come from a mysterious city where people never get old, but for some reason she had to escape to some other city, pregnant with protagonist. After she gave birth to the protagonist she was burned alive as a witch by the Spanish Inquisitor. The protagonist grew up to be an inventor and this is the journey of he and his family and friends searching for the lost city. Nice scenery and good voice acting. I completed it without using any online guide for even once! Took me around 10 hours. A really great game. Better than a lot of other 3D pnc adventure games nowadays. A shame this is the last game this company made before going out of business (from the looks of it).. Ugh. Terrible eat-em-up. Very little atual new gameplay, just redo the same eat-the-biggest-you-can-find stuff. Then the level progression takes it all away from you - I went from eating underwater cars (with wheels !) to eating small frogs.. its alright, but not as good as bad rats.. I came here after seeing Jim Sterling's video on this game. Great game for fans who are craving an NES or SNES style Zelda game, or if you're a fan of the retro 6 and 18 bit style. Some the puzzles are repetitive and sometimes frustrating. The best parts of this game are the dungeons, and I wish there were more of them. It's pretty clear this game takes inspiration from the Zelda classics, and is proud of it. Yet, there's enough originality in here to distinguish it from other similar games. The style is cute and fun. I'm having a great time playing this game overall, and I hope this is the first game in a series!. I cherish her name as i call back to her.... "It's kind of like a Mega Man crossed with a run-and-gun game. Not that long and not that hard even on the hardest difficulty unless you're trying for optional things like high ranks, but if it's cheap and the short blurb sounds interesting to you, you'll likely find this an enjoyable game."

That's what I said about the original A.R.E.S. Extinction Agenda. That pretty much holds true for EX, but it seemed somewhat more difficult (or I was just being bad at it) and has been reworked to be a good bit longer, with two extra levels, more cutscenes, and a second character with different abilities who you can choose to play through the game with instead. So, basically it fixed all of my complaints.

Given that they're the same original asking price, I would obviously recommend picking this one up instead if you don't have either. About all this game is missing is the goofy skins and the Berserker weapon, and skins are just cosmetics and the Berserker weapon was kind of overpowered anyway! If you do have the original, I think it's still worth it given the discount...!. I rate the add-on/DLC Hurricane of the Varstray: Threat of Third Force 4/5. Good.

This is a good little prequel which features greatly increased difficulty but otherwise has all the main strengths and weaknesses of the original game. Essentially, this little add-on features 4 extremely difficult prequel levels and some more funny broken english dialogue. If you liked Hurricane of the Varstray: Collateral Hazard (the main game) I'd definitely recommend getting this also. I've noticed no major bugs beyond the bad japanese-to-english translations.

It could be longer and the plot could be more interesting but then again it costs only 4 dollars. That's a dollar per level..

?????? ? ???? ? ? ???? ?

???? ???? ???? ???? ??. The only pizza delivery game where you can die from anthrax.

I guess that's a thing.. Needs a lot of work, and it's going to have a hard time vsing Post Scriptum. So i am going to say it now, this game is well made. But Post Scriptum is VERY WELL MADE. So when it comes out... Work harder, your game is great. But it's going to be hell... Lot's of love Devs, great game. I know i only have 30 something mins on here... Why? You may ask H&G has killed my mood for a ww2 fps... So no it's not cuz of your good game. Keep up the great work guys/girls. Love to see this game later on, and still work on it even when Post Scriptum comes out! Don't give up, you will win this.

This gun is a lovely weapon for those just starting out like me, The arrow head pack offers you a powerful Sniper rifle in an urban environment, It's Rate of fire and modifications will surely make those who buy it not only happy but a very powerful starter player.. yaa. Just collect for the badge :). I don't like games where you have to do boring work to unlock new features.

- * enemy attack animation is bad (attack procs before the animation)
- * gameplay is poor
- * turrets are...weird..?

Given that it's a cheap EA game, i won't go hard on it since its future is promising.

Can't recommend it in its current state.. I can't really explain the gameplay much to you, but this is one of those games that I once upon a time owned on CD and loved to heck and back when I was younger.

I couldn't for the life of me tell you why I like it so much.. Gets repetitive fast. It starts out fun, though.. Got stuck in using the jetpack and couldn't get out of it. Uninstalled after that. Terrible, buggy mess.. is being a bullet sponge a new mutation from the nukes?. Devs, thank you for this wonderful project! You've created a really educative app that let to look at works of art without leaving your home. I'm still impressed. It's GREAT!
