## Serious Sam 4: Planet Badass Download Direct

Download -->-->--> <http://bit.ly/2XNdOOv>

### About This Game

Developed by true shooter veterans in Croteam, Serious Sam 4: Planet Badass reignites the classic series by improving on the old-school formula. Enjoy the high-adrenaline action combat with an unbelievably destructive arsenal and experience Sam's iconic enemy-annihilating circle-strafing and backpedaling dance-routine on an even bigger scale.

### KEY FEATURES

#### AAAAAAAAAAAAA... BOOM

Serious Sam was always about using whatever comes towards you for target practice and this time it's no different. Fight through giant hordes of relentless foes, both those that defined the franchise like Kamikaze and Kleer and those ready to become iconic in the future.

#### Bigger, badder, better

Fight and explore your way through huge environments populated with optional objectives, secrets and deadly ambushes. But, fear not! Serious Sam 4: Planet Badass is still a focused, linear experience you have come to love, and NOT an open-world game.

#### Wroom, wroom

Traversing big environments is no easy task. So get your driving skills ready and jump on a motorcycle, a combine or even a bulletproof popemobile and drive your way through unfortunate enemy pedestrians.

#### This time, Sam's bringing friends

---

Companions no longer appear only in cut-scenes, but are taking part in the action. Rodriguez, Jones, Hellfire and the rest of the crew are joining Sam in this epic journey through Planet Badass.

---

**MageWorks update v0.1.2 is now available!:**

Build v0.1.2 primarily focuses on bug fixes, however, there are a few new additions and improvements to the game.

**Here's a list of what's new:**

- New menu system! Players now start the game with a more traditional menu system per community feedback. The new menu allows players to go directly to specific areas such as quick play, campaign, and the future workshop (coming soon)
- Bug fixes! Saving something shaped on the lathe requires the power to be turned off first. All parts of a drawing are now saved as intended. The CNC machine has been adjusted so it will not get stuck depending on what has been drawn.
- Music! There is now some background music in your castle and during the main menu.
- The mining cart ride now has some additional art integrated into the environment

**Known Issues:**

- Dragon fight still in process
- Book of Ink has no impact on ink yet
- Tutorial bird still in process of being programmed so tutorials can be completed
- Shaped crystals aren't currently saved after tumbling

---

## On the Horizon

- Fixing the 'Known Issues' 
- Zombie Shoppes! Work has begun on the zombie shoppes where players can buy new parts for their staff using the gold they've collected
- Continuing work on gameplay balancing with spell reload times, damage, and A.I. range
- Wrapping up the spells available to unlock
- The Workshop! An area that focuses purely on staff crafting and assembly will be available in the near future.

### . Update 0.9.6.1 (Bug-fix Update 4):

Some people have experienced a bug in Beta version 0.9.5.1 where the Sync Indicator in multiplayer could get stuck over the score screen. We have not been able to replicate the bug at our office. However, we decided to move the Syncing Indicator so it won't block any important data while we keep investigating if the bug still exists.

If you come across this bug in version 0.9.6 or later, please send us detailed information what happened at the end of the game (for example, did any player freeze or drop out of the game).

### Fixes. **Park Bound 1.7.5 Released:**

#### 1.7.5. [29/06/2016] Patch Notes HB14:

#### **From the team: Brand New Trailer!:**

Check out our brand new release trailer! I think this was found in a box of dusty old VHS tapes in Skullface's Mom's Basement :)

<https://www.youtube.com/watch?v=Cn07syMT8pI>. **Update 17.9 - There is more on the way:**

Greetings!

Just wanted to release an update for you all while I get some other things together for a larger update to come.

### **New Stuff**

- New system for AI detecting crimes. AI can now choose to report crimes they see, depending on their relationship with the person. Crimes are more easily detected during the day than at night.
- Thieves can now be sent to distract people who walk past them.
- A new button that shows information on the selected building, including owner and productions.
- You can now change your hair via your character's information window.
- You can now receive inheritance from family members who die.
- Children can now go to the Learning Hall during the day where they will keep warm and be kept entertained. More to come with this.

### **Changes**

- 
- Additional notifications added.
  - Women can now work while pregnant up until they become 'Heavily Pregnant'.
  - Various changes to UI.
  - Tweaks to caravans.
  - Changes to the employment window, you can now choose to see people who you cannot hire and why.
  - A few map changes.
  - Graphical and LOD tweaks.
  - People will now have the option to visit trading posts to buy food.
  - Tweaks to some upgrades.
  - Changes to some buildings.
  - General gameplay tweaks and improvements.

## Fixes

- Fixed game breaking bug that would result in a duplicate player family.
- Fixed some small production bugs.
- Fixed bug that would cause you to lose relationship points with someone after they change family.
- Fixed bug where AI would forage when they shouldn't.
- Fixed bug that would cause a baby to die before birth.
- Fixed bugs related to dying.
- Fixed some nav issues.
- Fixed some loading bugs.
- Dozens of other fixes to many different aspects of the game.

Cheers,

Stardog.. **Monthly update, January: A crazy release day! And looking ahead.:**

Wow. Just wow. Here we are about 12 hours after release. And I am exhausted. I've spent this whole time juggling 14 different browser tabs, responding to people in Steam, Twitter, Facebook, Twitch, Reddit, forums, and email. We are having a great launch day, and things on the US west coast are just getting started.

I've been following all the Twitch and YouTube streams that I possibly can, and I've come up with another big list of bugs I need to go fix. And I'm going to try staying on top of communication with all of you here and elsewhere across the internet. And of course, I need to get back to actually finishing the game.

---

Just FYI, I'm the only one handling both development and PR right now, so please be patient if I can't get to everything right away. Also, I'm overseas right now and my time zone is UTC +2, putting me 7-10 hours ahead of the continental US. So if you want to talk to me in your afternoon, I might not get to you until the next morning.

I just want to let all of you know that Early Access is only one milestone of many still to come. I'm not relaxing yet and I remain dedicated to finishing this game.

Thank you very much for your interest in Himeko Sutori. I'm sorry if I can't talk to all of you tonight, but I promise I'll be checking in early tomorrow morning.

Here's to a great Early Access launch and an eventual polished final release!
